一道思考题 请说出这道程序的运行结果:

```
139
140
     var haw = (x,y) = > \{
141
         return ()=>{
142
143
             \mathbf{x}(y)
144
145
     }
146
147
      function lichee(li){
148
         console.log(li())
149
      }
150
151
      function nut(){
          console.log("this is nut");
152
          return "this is lichee"
153
154
      }
155
      haw(lichee, nut)()
156
157
```
